### ***Friday 10.30am -12.30pm Craft Buffet – making the most of Prima dolls \$74***

**TMD Craft Buffet**

1 tag, 1 card, 1 single layout, 1 double layout

Don't you just love going to a buffet? Being able to choose one thing, or fill your plate and test out all the goodies on display? That's what TMD's Craft Buffet is all about. This class gives you a little taste of all kinds of scrapbooking. In Trina's Craft Buffet you will get to taste a tag, a card, a single layout and a double layout. All made using Prima's beautiful Wild and Free Collection and a selection of Prima Dolls by Julie Nutting.

**Friday 1.30pm-8.15pm – Magical mini album, from scratch \$130**

With over 40 pieces of 12x12 paper, a full 6x6 paper pad and yes embellishments too, this is going to be one *AH . MA . ZING* class! Especially as Trina is introducing a new manufacturer to you.... 49 and Market. Fresh and pretty, with fascinating new types of embellishments Trina is going to teach you how to make an album from good ole cardstock and then decorate it with all that beautiful product. Spanning two class times, you're going to be spoilt rotten with this new and intriguing class.

**Saturday 2.30pm – 4.30pm – Card Compendium with Esther Salisbury \$70**

Would you like to make a stylish compendium to store your handmade cards? You Can! In this class, Esther will show you how to create a unique storage box to keep greeting cards and mailing supplies together, ready to send to friends and family. Box making experience is not necessary.

We will use "Timeless Memories" 6x6 papers by Prima which are in a lovely vintage style.

**Skill level:** All levels welcome

## **All about the Tutors**

### **Trina McClune**

Trina McClune Designs is a hobby turned idea, turned business that has grown and developed over the many years it's owner has been scrapbooking.

Initially taking classes, herself, Trina soon learnt that she had a passion and flair for creating pages that spoke to herself and the people around her.

Her journey started when her Mother in Law asked if she'd seen the scrapbook shop just down the road and the rest as they say, is history. Not content to just create items for herself and her family, Trina soon found the amazing community filled with like minded people through magazines, and forums on the internet.

She started to submit projects to be considered for publication, and design team work and soon found herself working for magazines throughout Australia and New Zealand, designing for shops, and beginning to teach.

These opportunities grew as did her experience and passion and Trina found herself teaching more and more, and extending to international classes as well as continuing classes in New Zealand.

In the last few years, Trina has taken her hobby to a whole new level starting TMD, selling kits on a monthly basis (see 'This months kit featured on the home page for a new kit each month), taking a stand at SENZ where her kits and favourite products are sold, planning scrapbook adventures and retreats (for more information, click on the 'adventures' menu) as well as continuing teaching in real life.

She is considered one of the top tutors in NZ and is well liked and respected within the scrapbooking community.

Trina lives on the North Shore of Auckland, NZ with her family. In 2015 they finished building and moved into their 'dream' house after years of planning. Because of this Trina now has a wonderful area to craft in, being inspired by the natural view her office affords.

## Esther Salisbury: SiestaScrap

(See Esther Scrap – Did you get it?)

I live in Upper Hutt with my husband James, son Liam (18) and our Chocolate Labrador, Piper. I have an adult daughter (27), Natasha, who lives and works in Perth with her Partner Tom.

Having been raised in a household with a Mother who weaves and a Father who, at one time, was a full-time potter, craft work in its many forms has always been part of my life.

When we moved to Upper Hutt around 2007, I was introduced to Scrapbooking and was instantly hooked. Liam has Autism Spectrum Disorder and while Autism is his “escape” from the real world, scrapbooking has been my escape from Autism.

I enjoy all forms of this hobby – Layouts, Cards, Tags, ATC’s, Book and Box making as well as Mixed Media and Off-The-Page projects.

I am honoured to have been asked to teach a box making class at SENZ 2017 in association with Trina McClune Designs and I looking forward to teaching in a larger class environment. I hope to see you there.
